### **Update to OFAC's list of Specially Designated Nationals (SDN) and Blocked Persons; Publication of Iran-related Frequently Asked Questions**

Today, the U.S. government announced the establishment of a humanitarian channel in Qatar (HC) to further facilitate the flow of humanitarian assistance to the people of Iran consistent with the U.S. government's longstanding support for humanitarian trade. Similar to humanitarian channels established under previous administrations, the HC is designed to support the Iranian people's access to food, agricultural goods, medicine, and medical devices under stringent due diligence measures that guard against money laundering, misuse, and evasion of U.S. sanctions. The HC does not lift any U.S. sanctions on Iran, and the U.S. government continues to impose sanctions on Iran's malign activity, including in response to Iran's weapons proliferation and its support for international terrorism.
